[www.ridgeviewfarm-goble.com](http://www.ridgeviewfarm-goble.com)

Another year has come and gone since our last sale in October 2014. As always, life has not slowed down, especially our children. Max is going to be a freshman in high school and will join the wrestling team, Grant is entering the middle school as a 6th grader, and Nolan is wrapping up his last couple of years at elementary school. Our two youngest boys completed football tryouts and are excited about playing this fall. Hailey had a very successful first year at Olivet College, where she is studying Insurance & Risk Management and playing lacrosse. She is back there again for her sophomore year. Our kids are sprouting before our eyes, and Jami and I had to make some big decisions in regards to the future of the farm. We have decided that this year's Definite Difference sale will be a complete cow herd dispersal and cows will sell. We are not done farming and out of the cow business forever, it is our passion, but we are going to start from the bottom, just as we did over a decade ago.

As I sit down to write this letter, I cannot help but feel a bit of nostalgia.

So many amazing things have happened for us since we made the move from rural Canada to Alto, Michigan. We met Burt Lake, and worked with him to build a herd from the ground up. Our plan started very small, but eventually it expanded to include some wonderful head of cattle. We had our first production sale 2 years later, and it was a success. Since then, we have traveled thousands of miles to find high quality cows and the bulls that would put our program on the map.

Of course, I have a few favorites over the years that helped Ridgeview grow. First was our bull Kilo, whose genetics had an exponential impact on our herd. Even today, you will still see his name on our calves' pedigrees. Another stand out was Lake Lavern, who I found in dam at a dispersal sale at Sunnyside Stock Farm. Once she was at Ridgeview, she topped our sale and went to Ramsey's in Indiana. She had an incredible show season, from winning her respective divisions in Louisville and Denver, to being crowned Grand Champion Female at the 2003 Junior National, hosted in Indianapolis. The next bull that came on the scene was Total Package. I came across him in Georgia at Leonard Polled Herefords. His daughters were phenomenal and we have had great success with the Total Package daughters. They make pronominal cows. In the deal we got to split a flush on 9207C, that resulted in our Kilo son Kilowatts: what a grand adventure that has been. Kilowatts is out preforming all expectations.

It takes more than a great herd for a farm to be successful; it takes amazing people as well. We were lucky enough to meet Bill and Joan Cutler, who were great people and better friends. They developed an interest in the Hereford cows, and after buying a couple in the sale, eventually grew a herd; Cutler's Little Farm was born. Eventually, they decided winters in Michigan were too much and Florida was calling their name. During this time, our sons partnered with Cutler's Little Farm, and Goble Cattle Company was created. After many years, Burt was looking to retire, or at least slow down, and we had talked about some day purchasing the farm from him. What we dreamed about was finally happening; all at once. Jami and I bought the cows, and 2 years later bought the farm. We have come a long way, and could not be more thankful.

I cannot complete this letter without saying a few words about Vince Fischer, my herdsman and friend. He has helped Ridgeview to accomplish many things and has put in incredible work, I am thankful for everything that he has done for my family and myself. He is such a reliable hand that has made our life better and our trips to shows easier. I got to go to the barn and see one of my best friends everyday. When you do what you love with people you care about, it really isn't work at all. It will be different no longer shooting the breeze over coffee in the morning and a beer in the evening. Thank you for everything that you have done Vince, we owe much of our success to you. It has been the best time of my life. The greatest people surround me including dear friends, employees and family. Brion Hawkins, Dick & Jane Hawkins, Michelle, Brady and Austin Fischer, thank you for always being available when we needed a hand. The Landrum Family, thank you for your support and friendship, we have had some great memories with you and will continue to have more. Burt and Patricia Lake, thank you for trusting Jami and me with the farm all of those years. Last, but certainly not least, my family. Jami, Hailey, Max, Grant and Nolan, I could not picture my life without you all. I love you.

We are also helping a dear friend disperse his cows, Allen Harmon of Maple Ridge Farm. Allen was a driving force behind Hailey studying insurance at Olivet, and she is so happy there. He is having some health issues and approached us for help. He has been using Ridgeview bulls for years, and his offering is strong.

We have some of the best consignors that you could ask for. These consignors are not only business partners but they are some of our closest friends. Joan Cutler of Cutler's Little Farm, Dave and Vicky Rollins of Rollins Herefords in Indiana, John and Diane Parks of John Parks Farm, Tim & Nancy Keilty of Cottonwood Springs and Vince & Michelle Fischer of Harris Creek Herefords. They have all been instrumental in helping us develop our program. I am very excited for you to see the high caliber cattle that they are bringing to the table.

This wont be the last letter that I ever write for Ridgeview Farm, but for the time being we are going to be taking a break to focus on our family. All of the cows sell, and we will start over once again. Thank you again to all of our customers and friends, we would not be where we are today without you. This is not goodbye, just see you later.

All of my best,

*Bob*

Selling 3/4 interest and full possession.

We are proud to offer this impressive, sound eye appealing herd sire that is doing a super job breeding as indicated by his first calf crop.

He moves out free and easy on a big foot. He is up headed and acts like he's in charge when in the pasture. He is adding loads of style and quality to his calves especially stamping them dark red. He can handle lots of cows and will leave a beautiful set of replacements. His dam breeds so well and is sound and functional.

If cow families mean anything, then this bull calf should be a breeding machine. His grandmother "1036" was the foundation donor for Ridgeview Farm and worked for us until close to twenty years of age. Study the quality that comes with this calf and buy him with confidence. Longevity is as valuable of a selection trait as we have. This proven lady still gets it done and you can bet she isn't finished yet. Mated to Game Day could knock one out of the park!

This guy refused to be photoed. Just look at his paternal half sisters by Bright Expectations selling and take him home to build females. The daughters of 229 from the John Parks program have all been great calf raisers. This one is most interesting as she is double-bred. The cows in this sale in this age group will be the best buys.....they stayed around for good reason. Owned with John Parks Farm

One of the last chance's to invest in a son of Kilowatts. Just a March calf but sure holding his own. He is long, heavy muscled and correct. All he has to do is leave daughters that look like his mom.

A young power cow doing a top end job on her first try. Trust is tried and proven leaving both great breeding sons and daughters. This cow is an example why the Denver champ is so popular and still one of the leading semen sellers. Study the extra mass that comes with this female and that converts to efficiency. She numbers up well especially in the carcass department.

#### A SALE FEATURE

This is Max's female that took the Canadian Junior Bonanza by storm last summer. She has developed into a super brood cow with all the extras. She has tremendous quality to go with "the look" we all desire. She has an abundance of milk in a neat package to compliment her balanced EPD profile.

Her dam sells as lot 15 and is one of those typical top end producing daughters of Git-R-Done.

**Breeding information available sale day**

A well bred cow prospect by the popular Revolution 4R. His daughters are leading programs across North America with several in donor programs. This one should grow into one super brood cow due to the cow family top and bottom.

This cow has been one of those never miss females. Study her two daughters selling as lots 14 and 15A and you can rapidly see her maternal value.

Her maternal grandmother, Sis 334 was a favorite donor at Tennessee River Music.

**Bred April 24th to GCC JPF LBB Enticer A117 Safe in Calf**

A proven beef cow that gets the job done as shown by her daughters selling. She has a great "cow" pedigree and rightfully so as she was bred by Loewen Herefords. A female like this can be a foundation building block for most any progressive program. Her baby this year is pretty cool as well. Owned with Maple Ridge Farm

LOT 54

Dam of lot 60.

This John Parks female has a proven record as one that can get the job done. Lot 60 proves that. Her heifer calf selling is showing signs of being calved on a cold winter day. Owned with Maple Ridge Farm

Only daughter of Aces N Eights selling and one that will be a bargain. We had the misfortune of losing her calf but assure you she can get it done. Her dam was an earlier donor in this program and a power cow. Owned with Maple Ridge Farm

A special female to end the catalog. She is by the popular and proven S109 that is known for his beautiful daughters and their udders. We know the cow family and what it can do so no guesswork with this one. She is big and stout, has more than enough volume and mass yet she is feminine and productive looking. As one of our friends always says, "She just may be the next great one". Owned by Sterling Hunter
