www.ridgeviewfarm-goble.com

Welcome to our Mature Cow Sale

After traveling to a number of Expos this spring, I couldn't help but feel inspired to see and feel the enthusiasm surrounding the Hereford breed. Having such a fantastic breed and group of people is sure something to be thankful for. With spring on its way we hope you can all join us for this event.

Highlighting our sale this year are cows with experience and youngsters that will be great contributors to programs. Features include: Lavern, dam of Aces&Eights. Okojobi, dam of our high seller in October. Along with show heifer prospects, new herd sires and embryos.

We have called on our past consignors about the cow sale and they came through for a great offering for you. This year we have Goble Cattle Co., Cutler's Little Farm, Cottonwood Springs, Harris Creek Herefords, Park's Farm and Rollins Herefords. They have all brought a lot to the table in their offerings.

Thank you to all who have helped and supported us. Vince Fischer, thank you for your undying commitment to the success of the farm. A big thank you to all who have consigned in our sale, purchased from us or got involved in our program.

So come out and enjoy the unpredictable May weather in Michigan!

Bob

This featured sire is meeting our "Expectations" by siring problem free, stylish marked, high quality calves. They are vigorous at birth, express extra length and are performing at the top end of this crop. We are excited about his future both here and at our partner's Landrum Family Farm from Indiana.

A female that is certainly worthy of the lot one position. She produced our top selling heifer calf in our 2012 fall sale and will sell with a herd bull at side. She is so balanced in her phenotype, just right in her size and one can't imagine a better udder on any beef female. This cow will be a donor one day and go down as one of Online's all time top daughters. Retaining a 1/4 semen interest for in "herd use only" in the lot 1A bull calf.

Lot 2 and Lot 3 belong to our sons and we offer choice. All parents understand why we aren't selling both. Lady B 211X was a class winner at the 2011 Junior national and many times champion at shows in Michigan. She was a favorite of many who attended "Pride" last summer and visited the farm. She proves show heifers do make top cows as she is milky, moderate, easy fleshing and just dang good.

Her bull calf is short marked, was small at birth and should be acceptable for use on heifers.

Owned by Cutler's Little Farm & Goble Cattle Co.

Livvi is a full sister to our herd sire Kilowatts 104S and was Max's first show heifer. Her first daughter won her division at the 2012 Junior national. This lady is so sweet fronted, long sided and exhibits that near perfect udder.

We are excited to see her calf by Brite Expectations.
It's your choice and the buyer will be a winner either way.

Another member of the Ginger Gal 511P family that is sure going to have friends on sale day. Her first calf sold last fall to River Valley Polled Herefords in Newburgh, Ontario. Her sire S109 is now working for Gene Stumpf and family and Shingle Oaks Polled Herefords both from Illinois. Her dam is a donor for Thousand Hills Herefords in Illinois. Ginger 105X is an example of the optimum Hereford from an efficiency perspective.

Owned by Cutler's Little Farm & Goble Cattle Co.

20P is the result of a history making mating of two national champions. We all know Online's positive contribution to this breed. Curt Stockdale's national champion female 12G was a successful donor for Ken & Lee Larson in Texas. We sold her 2012 heifer calf for \$4000 to Harris Creek Herefords.

She has a herd bull at side that can more than pay the bill.

Owned by Cutler's Little Farm & Goble Cattle Co.

Our only daughter of Canadian Agribition champion Olympian. We purchased her from Truman and Starr Whaley in Georgia as a two year old. She breeds on time and does a top job raising her calf while keeping herself in good rig. She is the kind that will keep you in business.

One of the very favorite cows on the farm. She never misses, her calves are easy to market and she pays her way with a surplus. One daughter was Grand Champion at the New York State Fair. A son sold in our 2012 sale as a herd sire going to Run Away Herford Farms in Ontario. You will love the heifer calf going with her. This is one of those cows we will always wonder if we should have flushed. Owned by Cutler's Little Farm & Goble Cattle Co.

Dam sells as lot 44. We used this guy on a set of heifers last summer. He is short marked, deep, long sided and sound. His sire needs no introduction and his dam is one of our most prolific Kilo daughters from the Judy 322J donor cow family at Star Lake. This two year old can be used on several cows due to his age and size.

BW 5.6 (P+); WW 64(P); YW 110(P); MM 20 (P); M&G 51

0300 is a short marked young cow with a solid future ahead of her.

She is a daughter of the 542P cow and the high performing Outcross. Last year's bull will sell in Tennessee this fall at Burns Farm, and the heifer calf at side is out of our Tundra son that has done a great job. Owned by Cottonwood Springs Farm

300T is a functional, easy keeping, no worries kind that just flat gets the job done. She has a really nice heifer at side that has all kinds of potential. Her 2011 heifer is our best 2 year old, and 300T's dam was one of the greatest cows to walk the farm.

404S has done it all for us at CSF. She has had herd bulls, show heifers and great replacements. The bull at her side will improve performance and muscle for his new owner and is a 3/4 sib to her stout heifer she had last year that sold to Cutler's. Sound, functional, can't miss female. Owned by Cottonwood Springs Farm

542P is the deepest, biggest barreled cow on the place. She is an own daughter of the great Holden 786G that has had numerous offspring become donors or herdsires.

Consistent and productive with the fleshing ability to produce to-days type and kind. Owned by Cottonwood Springs Farm

2302 is a product of our ET program and we are only offering her because of the success of this flush. She has flush mates that will be replacements and a couple that will head to Jr. Nationals. Not to mention a brother that is outstanding and will be a herd bull and take the place of 18U in CSF's breeding program. Her dam, 8P has been a favorite since she was at MSU and has proven why; Look, muscle, pedigree, EPD's.

Owned by Cottonwood Springs Farm

A horned February out of our replacement pen that has the correctness, muscle and volume to move a herd forward. S109 has done very well for us and with this heifer going back to the great Cheyenne, and a top Holden bull; it's bred in. Owned by Cottonwood Springs Farm
